Notification of Creation of transpower stromübertragungs gmbh

Dear Madam/dear Sir,

based on the instructions of transpower stromübertragungs gmbh, we would like to inform you about the creation of this company.

The E.ON group has agreed with the EU Commission that the 380 kV and 220 kV grid of E.ON will be ownership unbundled, i.e. sold to an investor.

As a first step, the former company E.ON Netz GmbH had to be split up into two parts, one responsible for the activities concerning the 380kV/220kV network, the other responsible for the activities concerning the 110kV network and below.

This split up is now completed. E.ON Netz GmbH still remains responsible for the 110kV network and below. The new company responsible for the 380kV/220kV network has the name **transpower stromübertragungs gmbh**.

Transpower is the legal successor of E.ON Netz as far as the 380kV/220kV network of the former E.ON Netz GmbH is concerned.

As a result of the legal succession all rights and obligations of E.ON Netz GmbH (E.ON) that result from the participation of Auction Entities/Users in the Auctions are transferred to the new company transpower stromübertragungs gmbh (TPS).

The name of E.ON Netz GmbH (E.ON) will be substituted by the name of transpower stromübertragungs gmbh with the abbreviation TPS in Auction Rules and e-Trace system as of 1st July 2009. The adapted Auction Rules will be published 1st July 2009 on the e-Trace web page <http://www.e-trace.biz>.
